Assignment Submission

1. Explain the difference between Relative, Absolute and Mixed Cell Referencing .
   You have the following dataset:

Vehicle	Price
Car	500000
Bicycle	10500
Auto-Rickshaw	25000

Ans. Relative reference changes automatically when a formula is copied to another cell.
Example:
If we use =B2*D1 in C2 and drag it down, it becomes =B3*D2.

Absolute Cell Referencing
Absolute reference remains fixed even when the formula is copied. It uses $ symbol.
Example:
=B2*D2
Here, D2 (tax rate) will not change when copied.

Mixed Cell Referencing
Mixed reference fixes either row or column.
Examples:

- $D2 → Column fixed, row changes
- D$2 → Row fixed, column changes

Q2. Write a formula to calculate the total sales of car and Bicycle only only.
Ans.

Item	Price
Car	500000
Bicycle	15000
Auto-rickshaw	250000
Total (Car + Bicycle)	=Sum(Car+Bicycle)

Q3. Using the data below, write formula to calculate the average sales of items priced above 100 but less then 300:

Item	Price	Sales
Item A	90	1000
Item B	150	1200
Item C	250	1500

Ans.

Clipboard Font Alignment

D2 =AVERAGEIFS(C2:C4, B2:B4, ">100", B2:B4, "<300")

	A	B	C	D	E	F	G	H
1	Item	Price	Sales	Average Sales (>100 & <300)				
2	Item A	90	1000	1350				
3	Item B	150	1200					
4	Item C	250	1500					
5								

Note: Use the following Dataset and solve the following questions.

OrderID	CustomerName	Region	Product	Quantity	UnitPrice	Total Sales	OrderDate	Calculated Total Sales
1001	Amit Sharma	North	Notebook	10	50	500	########	500
1002	Neha Verma	South	Pen	20	10	200	########	200

1048	Kunal Singh	West	Eraser	32	8	256	########	256

1049	Ritika Jain	North	Notebook	12	50	600	########	600
1050	Vivek Malhotra	South	Pen	25	10	250	########	250

4. Count how many customer names are recorded.

Ans. Total customer is 50 customer. By using this formula =counta(B2:B51)

5. Calculate the Total Sales for each row using a formula.

Ans. Total sales is 16543

6. Calculate the total sales of Notebooks in the North region only.

Ans. Total Sale of notebook in North is 2900

7. Create a column chart showing total sales by product.

Ans. Answer is given excel file

8. Insert a line chart showing daily sales trend.

Ans. Answer is give in excel file
